- Rugged Construction**
- Reduce Neck/Back Fatigue**
- Improve Visibility**
- See Better at Night**
- Unlimited Applications**
- Eliminate Blind Spots**
- Easy Installation**

When you need extra visibility around the farm or out on the road, a versatile camera observation system can give you the edge you need. A&I Products CabCam can be the extra “eyes” required to fill that need at an affordable price.

With its three-camera capability, CabCam has unlimited application possibilities. Eliminate blind spots and improve day and night visibility on semi-trailers, garbage trucks, dump trucks, beet harvesters, pickups with trailers, industrial and construction equipment, mobile homes, and campers. CabCam can be used to monitor cattle and hog lots or conveyer systems.

*\*Product, pricing, and warranty details on back.*

CabCam's rugged construction makes it perfect for agricultural applications as it is designed specifically to withstand rough and dusty conditions. In agricultural applications, CabCam allows users to watch critical areas of machinery or implements that were nearly impossible to monitor in the past. CabCam can eliminate neck and back

fatigue by significantly reducing the need to turn around to check equipment.

CabCam's twenty-eight infrared illuminator camera provides excellent night-vision. This durable, wide-angle, easy-to-mount camera system allows users to work more efficiently, day or night and comes complete with a one-year warranty.

#### A-CC7M1C CabCAM™ Camera Observation System
